HZS搅拌站

Concrete mixing plant

方圆集团位于胶东半岛，占地 180万平方米，其生产的混凝土搅拌站广泛参与建筑、水利、电力、铁路、公路、隧道、港口、码头、国防、核电等区域，经过四十余年执着的创新与发展，以建立长期品牌价值为使命，为用户贴身打造专属成套搅拌设备为己任，凭借雄厚的技术力量，为众多重点建设工程提供了卓越服务，赢得了国内外用户的青睐，实现了合作双方的互利共赢。

Fangyuan group is located in the Jiaodong Peninsula, covers an area of 180 million square meters,our concrete mixing plant is participate in a wide range of construction, water conservancy, electricity, railways, highways, tunnels, ports, terminals, national defense, nuclear power and other areas, after more than forty years of persistent innovation and development, we will take long-term brand value for the mission, with strong technical force, supply the excellent service for many key construction projects provide ,to achieve mutual benefit and win-win cooperation .

卓越品质源自40年的持续关注
Excellent quality comes from continuous focus more than 40 years.

HZS180D / HZS120D 搅拌站 Concrete mixing plant

鼓式专利设计卷筒，实现提升和倾翻变速，高系统稳定性和可靠性，平稳启停，钢丝绳寿命长。

Drum-type patented design; it realized variable speed of lifting and tipping. High Stability and reliability, smoothly start and stop, long service life of wire rope.

尾巴（钢丝绳）断掉，我还有灵巧的四肢保护！

Hopper with fall protection device, although the wire rope cut off, hopper remains.

配料机电控箱，集中接线，便于检修。

Batcher electrical cabin, centralized connection, convenient test.

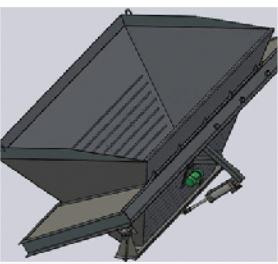

配料机气控柜，集中控制，维护便捷。

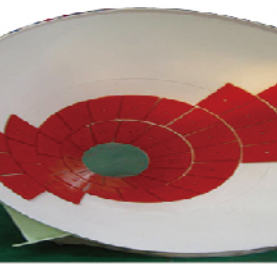

Batcher air control cabin, centralized controlling, convenient maintenance.

模块化箱体式设计，主站安装仅需3小时。
Modular design, fast assembling and debugging, fastest assembling in 3hours.

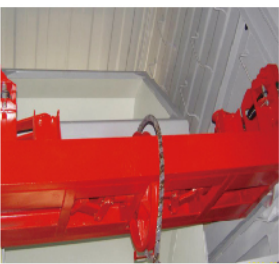

专用骨料暂存斗，减少骨料配料时间，生产效率更高。
Have aggregate storage device for short time, aggregate batching time short and high production efficiency.

主机接料斗采用耐磨技术设计，经久耐用，且不伤斗体。
The meeting hopper adopts the wear-resisting technology, last for many years and no harm to body of hopper.

大直径、变频提升卷筒，节能降耗，有效保护钢丝绳。
bigger diameter, frequency roller, Energy saving and reducing consumption, long life for steel wire rope.

安全可靠的斗提上料技术，提升、松绳限位、防坠落多重防护机制，确保施工安全。
Lifting system has loose rope, exceed limit position, fall protection measures, reliable safety for construction.

HZS180D HZS120D 搅拌站 性能特点

- 1、可靠的轴端密封技术+高耐磨衬板叶片
- 2、主机防粘轴设计，减轻清理工作量
- 3、独特的提升机构，平稳启停，钢丝绳寿命长
- 4、提升系统松绳、冲顶、防坠落多重防护机制
- 5、上料、搅拌全密封，粉仓脉冲负压除尘，环保无污染
- 6、系统计量精准，操控人性化、智能化
- 7、完备故障预防及报警机制，欠压、卡门问题不再困扰
- 8、骨料仓体积加大，可选辅助上料机构，装载机不再疲于奔命

Performance characteristics

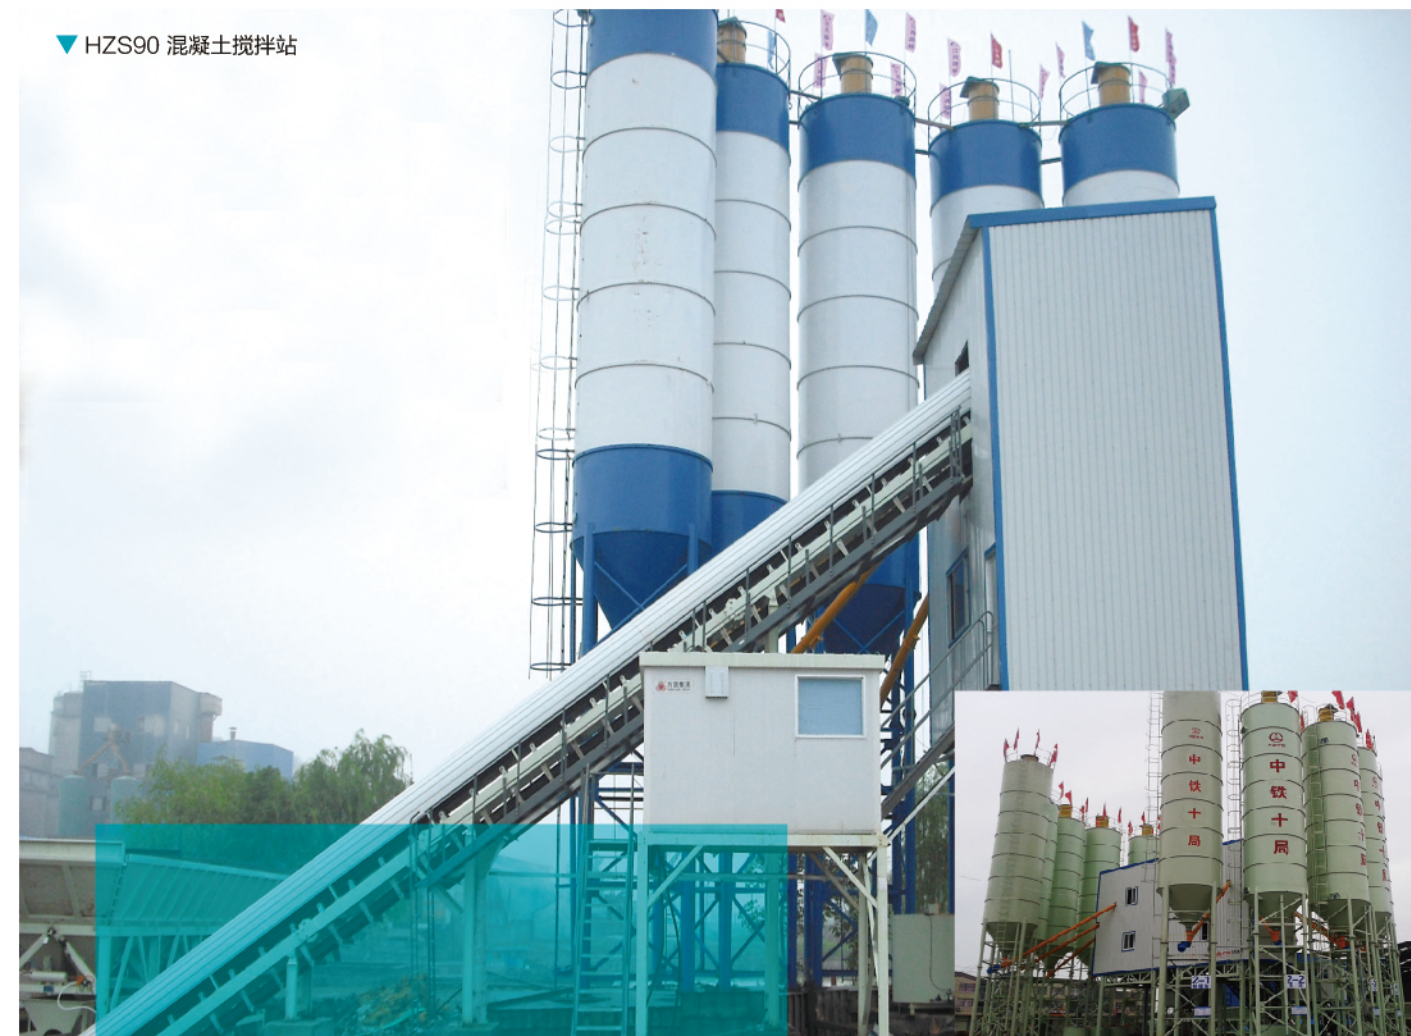

- 1、Reliable shaft end seal technology+ high wear-resisting lining plate and blade.
- 2、Mixer prevent aggregate stick on shaft, reduce cleaning workload.
- 3、Special lifting mechanism, start and stop smoothly, long life of steel wire rope.
- 4、Lifting system have loose rope, exceed limit position, fall protection measures.
- 5、Feeding and mixing complete sealing, powder material silo adopt pulse negative pressure dust catcher, no pollution.
- 6、Weighing accurately, control humanization an intelligent.
- 7、Complete failure prevention and alarm mechanism, not because the voltage is not enough to block the discharging door.
- 8、Increasing aggregate bin volume, can use assisted feeding mechanism to loader no longer busy.

▼ HZS75-CP1500 混凝土搅拌站

HZS50B / HZS75A 搅拌站 Concrete mixing plant

▼ HZS50B 混凝土搅拌站

独特的提升装置，延长钢丝绳寿命；电机刹车采用电磁制动，安全可靠。

Special lifting structure makes the wire rope longer life, electromagnetism brake makes it safe and reliable.

倾翻式上料斗，提升、卸料平稳可靠。

Tipping-hopper, steady and reliable to lift and discharge.

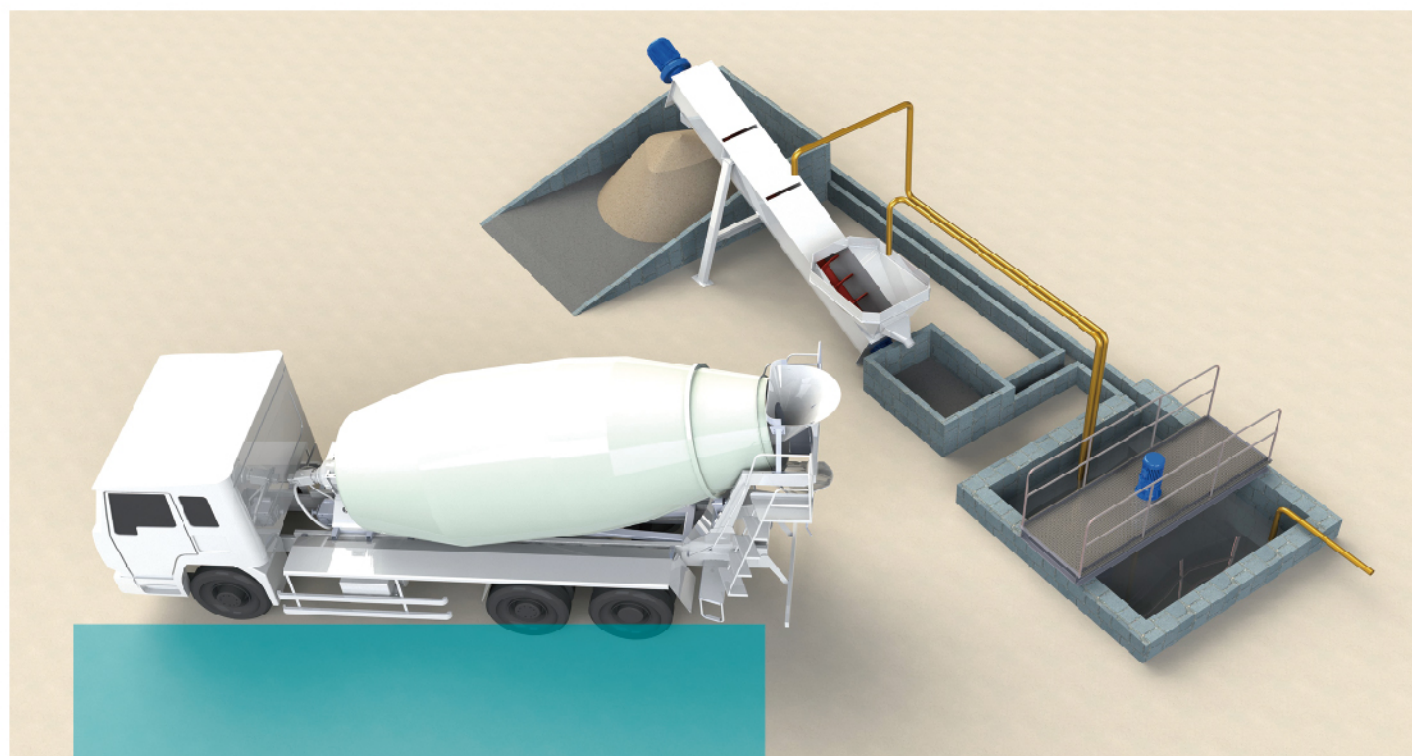

▲ HZS75A 混凝土搅拌站

筛分成套设备-SSJ

特点：将混凝土骨料中的砂或石进行优选筛分，提高混凝土原材料的质量。

混凝土回收分离 成套设备-THF30

特点：整体结构紧凑，占地面积小；物料分离干净，噪声小；环保设计，节约能源，净化环境。

见证历史 启迪未来

Witness history enlightenment in the future

方圆集团，用资质沉淀历史，用荣誉彰显未来。每一份资质与荣誉的获得，都是方圆人智慧与汗水的结晶；每一份资质与荣誉的背后，承载起方圆集团未来的希望。

特殊案例 Special case

▲ 轨枕专用搅拌站
Special concrete mixing plant for cross sleeper

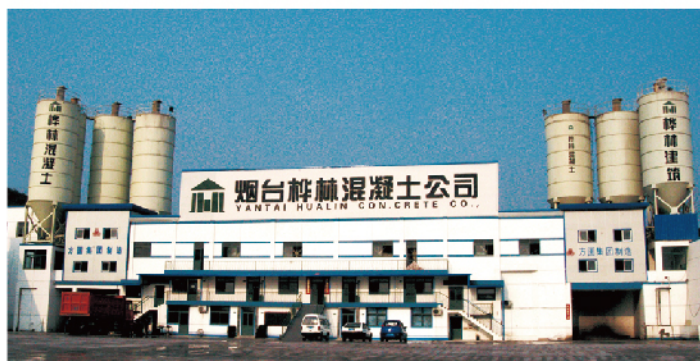

▲ 管桩专用搅拌站
Special concrete mixing plant for pipe pile

▲ 预热式搅拌站
Preheating concrete mixing plant

▲ 预冷式搅拌站
Pre-cooling concrete mixing plant

▲ 土建与钢结构结合式搅拌站
